Re: Software Developer Intern/Co-op Position, R_1386743

Dear Hiring Manager,

I am writing to express my interest in the Software Developer Intern/Co-op position at TD Bank for Summer 2025, as advertised on your careers website. As a student in the Mobile App Development & Analysis program at George Brown College with a 4.0 GPA and over two years of professional experience in iOS development, I am eager to contribute to TD's innovative approach to transforming customer experiences through TD Invent.

In my roles at Rayo Innovations and Hyperlink Infosystem, I developed scalable mobile apps using Swift, UIKit, and Core Data, including a gamified treasure hunt with MapKit and offline synchronization for low-connectivity environments. My experience with MVVM, MVC, and integrating RESTful APIs enables me to build robust, user-focused solutions while collaborating effectively with cross-functional teams.

TD Bank's innovation and inclusivity align with my goals, and I am inspired by TD Invent's mission to transform banking through cutting-edge technologies. I am eager to contribute with my skills and passion for impactful development. Thank you for considering my application; I look forward to discussing how my experience aligns with TD's vision. You can reach me at (437) 606-3439 or chintanpareshkumar.panchal@georgebrown.ca.

Sincerely,
Chintan Panchal
